

**All payments
services for your hotel
in a single platform**

Smart, Seamless, Secure

hippotechnik.com

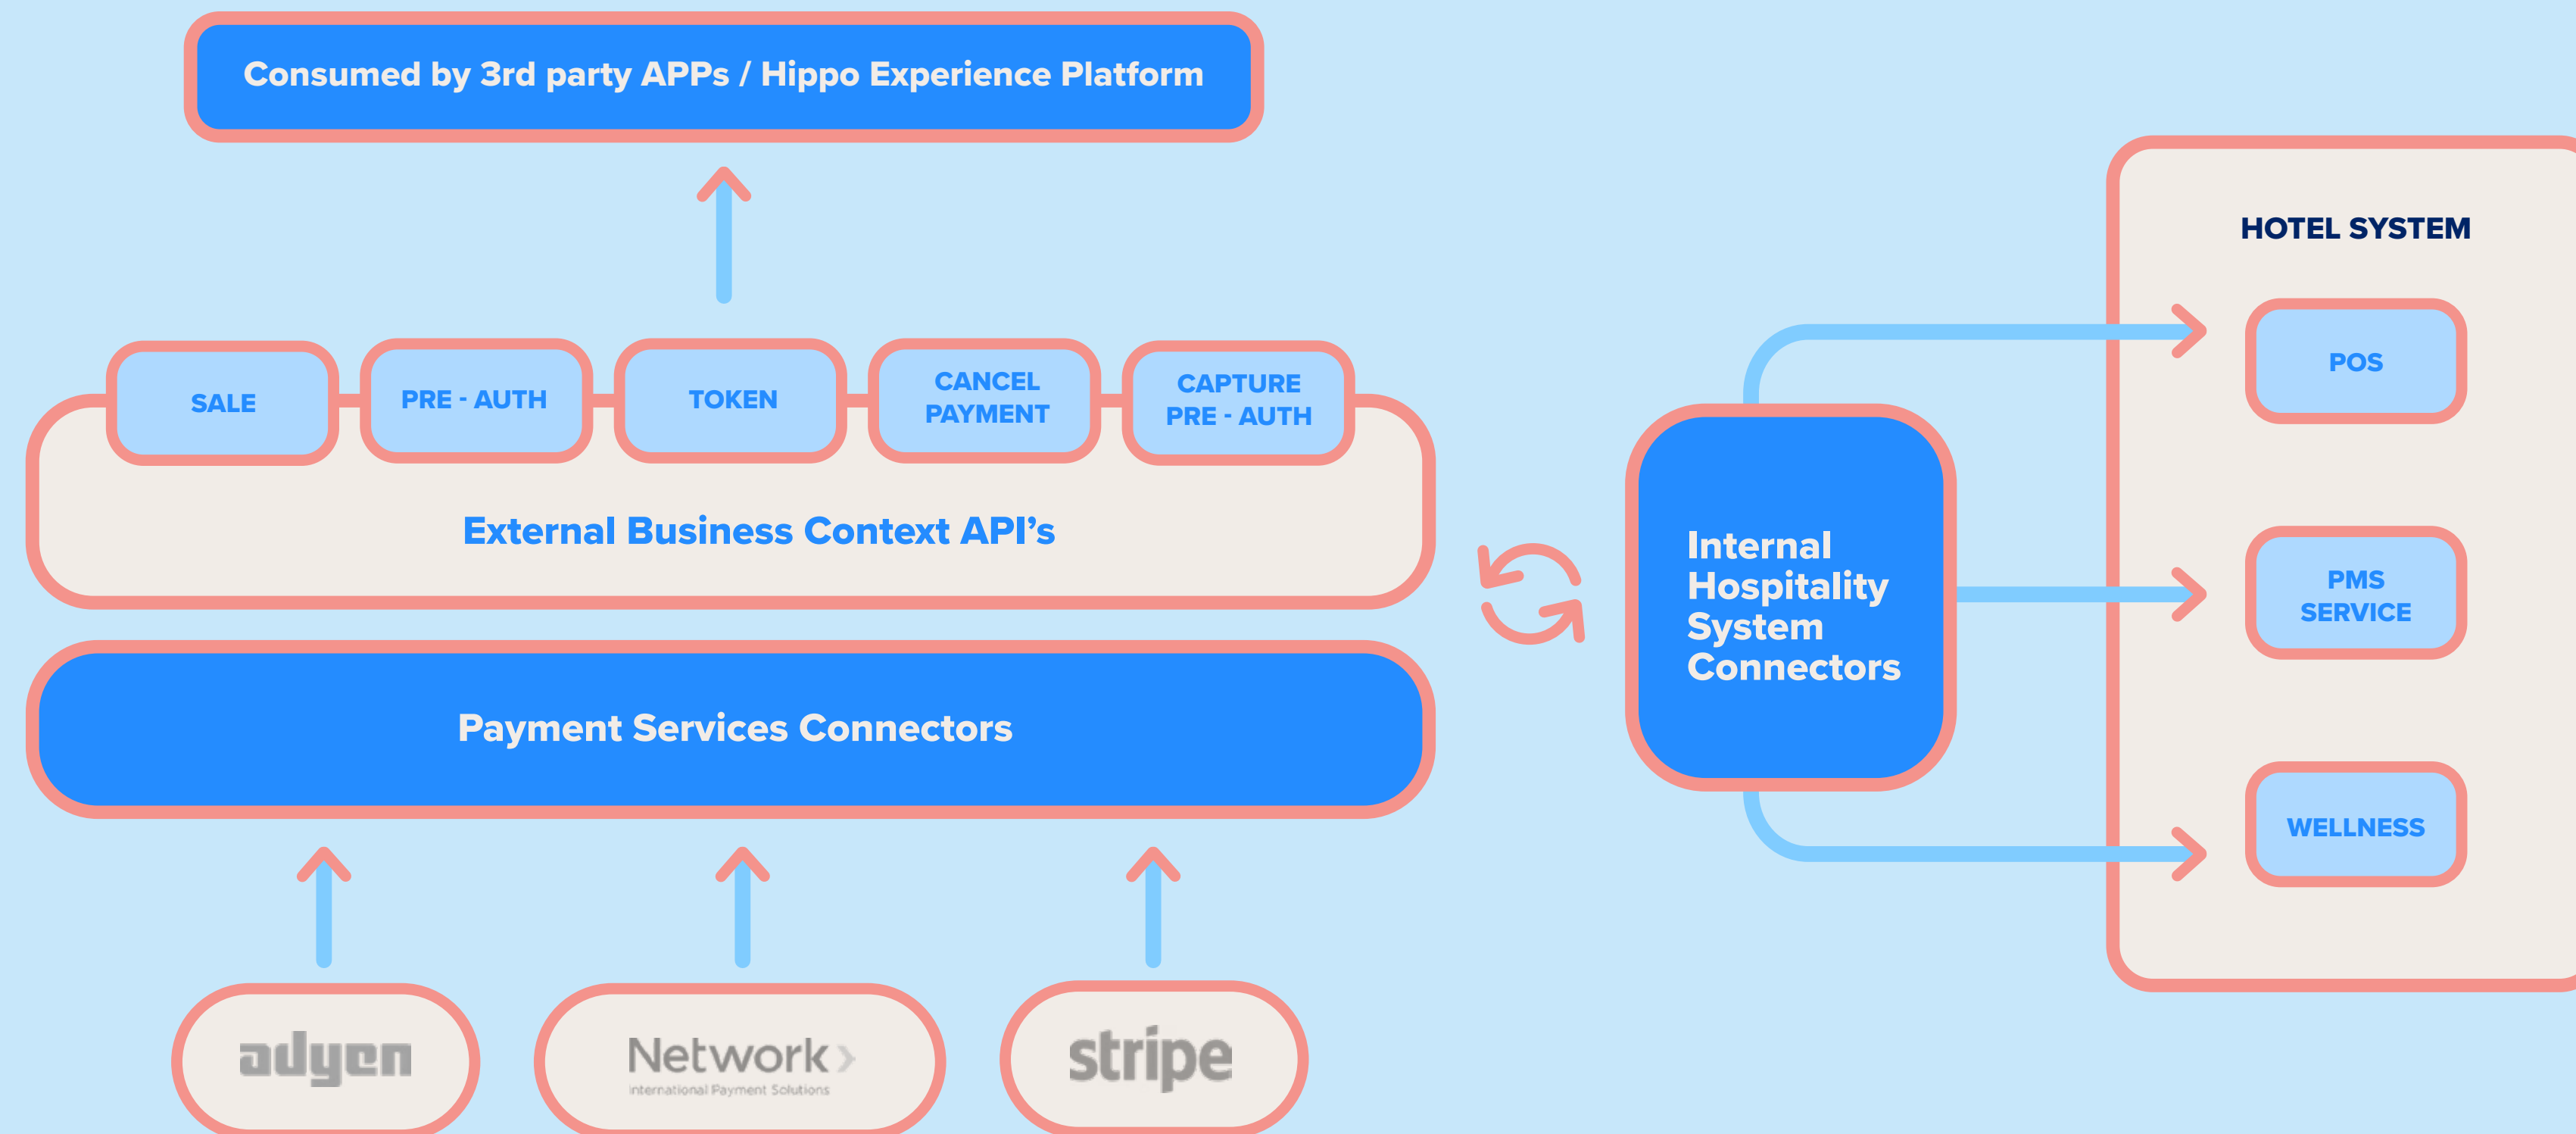

Seamless payment management for your hotel

Centralize the management of payments across all channels and regions with a unified payments partner. We offer the flexibility to open new sales channels and roll-out new guest journeys, fast and at scale.

A middleware solution that orchestrates all payment functions across your hotel operations

Bring personalization to guest payments

From offering the payment methods that matter to your guests, to using tokenization to recognize previous guests at any location in the world, give every guest a personalized experience.

Automate hotel payment processing

Makes processing payments at your property fast, seamless and secure. Our integrated payment gateway automates payment tasks to save time, increase security and improve the guest experience.

One-Click Payments

Card information is collected from the start and ready to use for additional charges.

More Ways to Boost Revenue

Make it easy for guests to pay without the need to show their cards repeatedly.

Virtual Card Detection

Hippo recognizes virtual cards and automatically processes the payment at a time set by you.

Get complete reporting with AI powered analytics

Real-Time Overview

Centralized Reconciliation

Tailored Payment Reports

Flexible Settlement Rules

Failed Payment Solution

Keep property and guest data secure

Incorporate the industry's highest security standards. Property and guest data is stored and processed safely, with automated processes designed to reduce the risk of fraud, theft or manual errors.

PCI DSS compliance

Servers and payment gateway provider are fully PCI DSS compliant.

Tokenization

Credit card details are replaced with an encrypted token so sensitive data is never seen or collected.

Safe and Easy

3DS optimized and PSD2 compliant so you can always be sure that card information is protected.

Fully integrated journeys

Integrated with the leading Point of Sale Systems to provide seamless end-to-end restaurant experiences

PCI-compliant payment experiences, partnered with leading payment gateways
