GHA D\$ Redemption *by Veridian*

Every D\$ redemption posted to Opera in real time — no manual processing, no duplicate entry, no month-end clean-up.

Your front office, *back with the guest.*

Veridian's D\$ Redemption agent handles the entire redemption — live member balance, redemption on stay, and every PMS payment & reimbursement posting — end-to-end, synchronised with Opera Cloud via OHIP. Your team retrieves a guest's D\$ balance in one tap and confirms the redemption while the guest is still at the desk. Finance gets clean, compliant postings and faster reimbursements — automatically.
