

HOTELOGIX
smart hoteliering

Run your hotel
from your
smartphone with

**Hotelogix Mobile
Hotel PMS App**

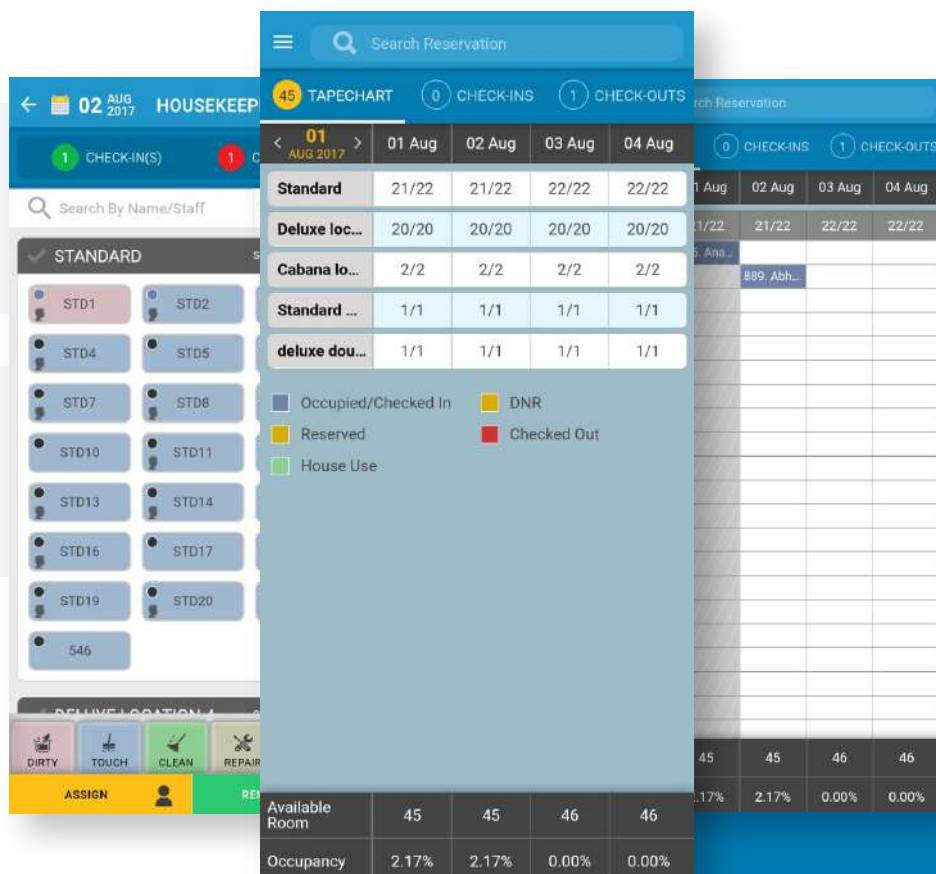

As a hotelier, you can't ignore the importance of a Mobile Hotel App

In today's mobile-first business environment. It has become a must-have due to many operational benefits. And if you are using our cloud-based hotel property management system, you are already one step ahead of your competitors as you get to use our intuitive Mobile Hotel PMS App.

Presenting the next-gen Mobile PMS App for smart hotels

Hotelogix Mobile Hotel PMS App has everything you need to efficiently automate operations across departments in your hotel from the comfort and convenience of your smartphone, with just a few clicks, from wherever you are. Additionally, it helps in serving your guests, too.

Easily manage front desk operations

Scan guest IDs from 80+ countries from your mobile and finish the check-in a few seconds

Issue/print invoices for quick and easy settlement for faster checkouts

With tape chart view, create/modify/move reservations from a single screen

Speed up housekeeping operations

Assign tasks to your housekeeping staff

Change room status to get updated on the front desk – mark them as clean/not clean/under maintenance/ready to occupy

Say bye to complex tasks

Change rack rates

Implement required pricing plan as per demand

Modify seasonal rates

Create individual, corporate, and travel agent reservations

Set up and run multiple POS outlets

Process refunds

Stay on top of your business

Stay informed all the time about your hotel position
– no shows and expected walk-ins, etc.

View KPIs including guest details, ARR, RevPAR, occupancy, house status, revenue analysis, business on books, and top-performing OTAs

Perform night audit, generate and access several MIS reports

Make data-driven decisions

Increase staff productivity

Simple and easy to use

Self-guided walking tours help new users get familiar with the features and functionalities

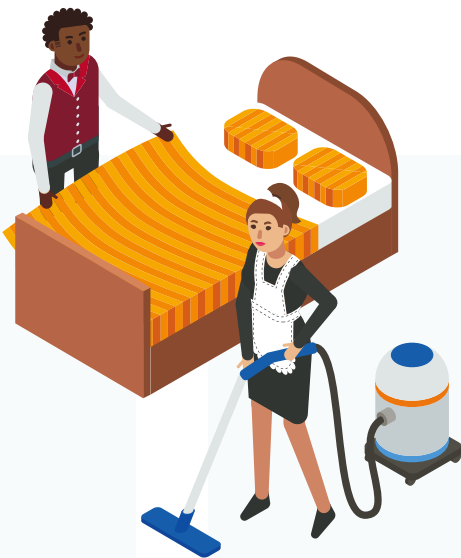

Staff don't need extensive training to work on the App

They don't have to rush to the scanner as they can use their phone's camera to scan guest documents

In-built OCR technology fills in the guest data from the scanned document

Improves communications between front office and housekeeping

With real-time inventory available on their phones, your sales personnel can sell immediately

With Hotelogix Mobile Hotel PMS App

You are sure to gain convenience and mobility to enhance your overall performance. Everything you do with the PMS App leads to guest satisfaction and improved revenue. This is your key to long-term stability and scalability.
