From the guest ease of use and user-friendly dashboard, we did not face any major challenges until now. Vserve check on us from time to time to get feedback as well as to find out if there's anything they could have done better. Vserve definitely improve our operations (less call to be handled) and more structured order-to-delivery process .”

We could understand the platform easily by attending the training. All questions were answered immediately and effectively. Even during onboarding time, we have been provided support even during odd hours like 2am.

Excellent supporting Team, I really like working with them no hustles and no delays and I mean it's like they are on 24/7 shifts never have any issue. Sometimes I request for support the night and it's done with no delay.
