VIKEY ONLINE CHECK-IN

STORAGE OF GUESTS DATA

Automatic guests data storage. If required by your country, the sending of guests' data is included in this module.

AUTOMATIC VERIFICATION OF GUEST DOCUMENTS

Vikey automates the guest identity verification through a selfie compared to the document uploaded by the guest during online check-in.

INTEGRATION WITH YOUR PMS

Automatic synchronization of booking data, from PMS and CM or directly from Airbnb, to your MyVikey dashboard.

SIGN CONTRACTS WITH OTP

Automatically have guests sign rent, privacy, and "advertising" contracts remotely using OTP codes.

CITY TAX

Vikey calculates the City Tax and prompts your guests for online payment.

VIKEY CHANNEL MANAGER

Calendar for managing prices and availability across all your booking channels, in real-time directly on your dashboard.

VIKEY WHITE LABEL

Customization of the guest WebApp, with logos and colors aligned with your brand identity.

WHATSAPP/SMS OPENING LINK

Sending the unique opening link to the guest via SMS or WhatsApp.

REMINDE CHECK-IN ONLINE WHATSAPP/SMS

Sending a WhatsApp message or SMS to remind your guest to complete the online check-in, 24/48 hours before their arrival.

VIKEY SELF CHECK-IN

MAIN ENTRANCE

Make the opening of condominium entrances or your reception smart by connecting the Vikey4 hub to the intercom or to already electrified locks.

Guests will be able to open the main entrance from the WebApp, or you can open it remotely from the Vikey Host app.

The installation does not require condominium permissions.

VIKEY SELF CHECK-IN

APARTMENT OR ROOM DOOR

Make the door opening smart by choosing one of our electronic locks.

Guests will be able to open the door from the WebApp, entering a code on the numeric keypad or using an RFID card.

Thanks to the Vikey4 hub, the link to the WebApp and the opening code will be unique for each reservation.

At any time, you can open remotely from the Vikey Host app, no matter where you are.

CHOOSE THE DEVICE THAT'S BEST FOR YOU

VIKEY SMART LOCK

- ✓ Replaces the European cylinder.
- ✓ Motorized locking and unlocking with latches.
- ✓ Rechargeable.
- ✓ Also compatible with armored doors.
- ✓ Easy and reversible installation.
- ✓ Opening even without internet and remotely.

VIKEY SELF CHECK-IN

KEYBOX SMART

- ✓ Opening even without internet.
- ✓ Remote opening via the app.
- ✓ Self-contained, non-invasive installation.
- ✓ Physical security key.
- ✓ Temporary codes for each reservation
- ✓ Battery-powered.

VIKEY SMART HANDLE

- ✓ Replaces the handle.
- ✓ Locking with latches.
- ✓ Battery-powered.
- ✓ Compatible with room doors.
- ✓ Easy and reversible installation.
- ✓ Opening even without internet and remotely.

VIKEY ELECTRIC STRIKE

- ✓ Compatible with all types of locks.
- ✓ Does not eliminate the original key.
- ✓ Electrifies the door.
- ✓ Also compatible with armored doors.
- ✓ Not visible from the outside.
- ✓ Smart and remote opening.

VIKEY DOMOTICS

HUB VIKEY4 + NOISE SENSOR

It enables gate and door opening, manages links and access codes, and also controls noise levels without recording audio.

MOTION SENSOR

Through IR lights detects motions and presence. Combined with other sensors, automates the turning off of devices if no one is present.

SMART A/C CONTROL

Universal IR remote control for the remote control of several household appliances, including air conditioner, TV, STB, lighting, audio, etc.

SMART WALL SWITCH

With single-channel or dual-channel relay, it is used to turn on or off the power of any electrical device.

TEMPERATURE AND HUMIDITY SENSOR

It monitors temperature, humidity and atmospheric pressure in real time.

SMART PLUG

Switches on or off the power of devices and household appliances.

VIKEY DOMOTICS

WATER LEAKS

Detects water leaks and protects your accommodation facility. When water reaches your Vikey device, it will automatically send you a notification.

DOORS AND WINDOWS OPENING SENSOR

It detects in real time whether doors or windows are open, using the proximity of magnets. You can set automatic rules, such as turning off the air conditioning if a window is open.

SMART THERMOSTAT

It uses the thermostat to adjust the room temperature and can remotely turn off the heating by setting automatic rules.

SMART THERMOSTATIC VALVE

Replaces the radiator valve to automate the heating of a room. Combined with other sensors, you can create automatic rules.

SMOKE DETECTOR

If smoke is detected, the sensor immediately alerts guests with an alarm. You will receive a real-time notification on your smartphone.

SMART CABLE

The sensor tracks electricity consumption and also works as a remote switch.

VIKEY PRICES

Vikey Online Check-in
