

Enterprise EV Charging Software built from the ground up for Real Estate.

- **Hardware Agnostic:** We partner with the biggest and best names in Electrical Infrastructure that happen to build great EV Chargers.
- **Fault Detection:** With real-time access to EV Charger diagnostics our platform can detect and alert on demand.
- **Payment Management:** EV Drivers pay by kWh or package, reserve a station and more via Visa, MC, Apple Pay, and Google Pay.
- **Portfolio Visibility:** Our Dashboards and Reporting deliver configurable access from a single charger, to a property, and even a portfolio.
- **Access Control:** Through integrations with leading property management systems you control who is able to charge, which station and any fees.
- **Load Management:** Add more charging capacity when you have minimal panel space. Dynamically allocate optimal load at each port.

Featured Partners and Active Integrations

Level 2 Chargers: ABB, Siemens, ZeroVA, Autel, Wallbox, Samsung, i-Charging, and more

Level 3 Chargers: ABB, Siemens, Tritium, ZeroVA, Autel, Tellus, Wallbox, and more

Software: Oracle Hospitality, Mews, Yardi, Entrata, Streamline, Guesty, RealPage, and more
