

# Preventative Maintenance

Optii Preventive Maintenance increases engineering efficiency, helps manage cost, and extends the life of your assets for increased profitability.

## → Auto-Generate & Assign

Auto-generate and assign jobs based on project rules, schedule, and business requirements.

## → Tracking Functionalities

Track not only assets by usage, repair frequency, and labor costs, but also track the performance and productivity of your team members.

## → Average Job Cost

Optii uniquely provides insight into the average cost of jobs, critical to management and ownership P&L.

## → Efficiency

Increase engineer efficiency and productivity, and balance scheduled vs ad-hoc jobs.

## → Extend Asset Life

Benefit from improved asset condition, value and productivity, while balancing scheduled vs ad-hoc jobs.

## → Multi-Property Management

Manage and monitor your entire portfolio with above property reporting.
