Upgrading travel experiences

Our company

Manet Mobile Solutions (MMS) is an Italian company developing digital solutions for the global tourism industry, including hospitality, car rental, and tour operators.

Our Mission

Provide worldwide travelers with easy and convenient **mobile data connectivity** and **high-value services**, ensuring a smooth experience at every stage of their trip abroad.

The problem

Travelers' need for connectivity

From booking to transport, from staying at the destination to coming back home, travelers services market relies on a common enabler: the **connectivity**.

Staying in touch
with friends and family

Enjoying tourist services and content about the destination

Communicating
with the travel service provider

The problem

Travelers' need for connectivity

From booking to transport, from staying at the destination to coming back home, travelers services market relies on a common enabler: the **connectivity**.

Staying in touch
with friends and family

Enjoying tourist services and content about the destination

Communicating
with the travel service provider

As of today, traveling abroad with a mobile device has **two limitations**:

Roaming charges are expensive
when using standard SIM cards.

Getting a local operator's rate takes time,
requiring users to visit a store and purchase a new SIM card.

The solution

**A new advancement
in mobile devices
now simplifies traveling abroad!**

The solution
eSIMs

eSIMs are **virtual SIM** cards that can be digitally added to smartphones for activating **mobile data plans** without the need of a physical SIM card.

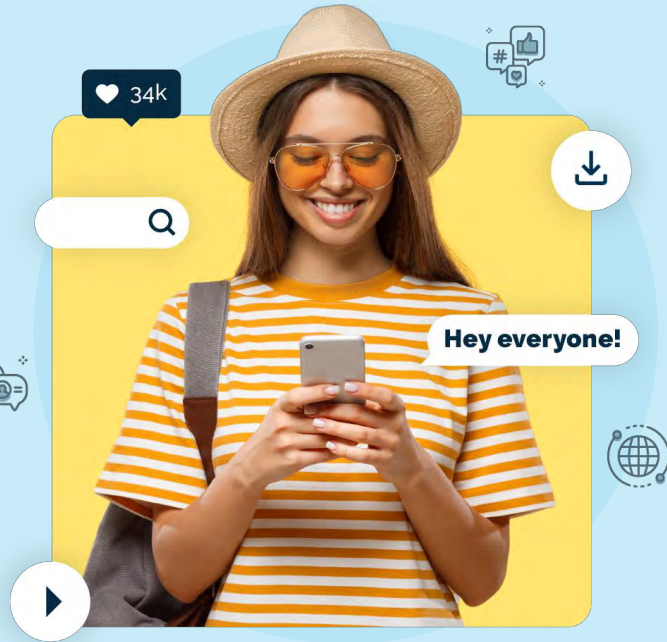

Almost all mid- and high-end smartphones support eSIMs.

Number of compatible smartphones is permanently growing!

manet
travel

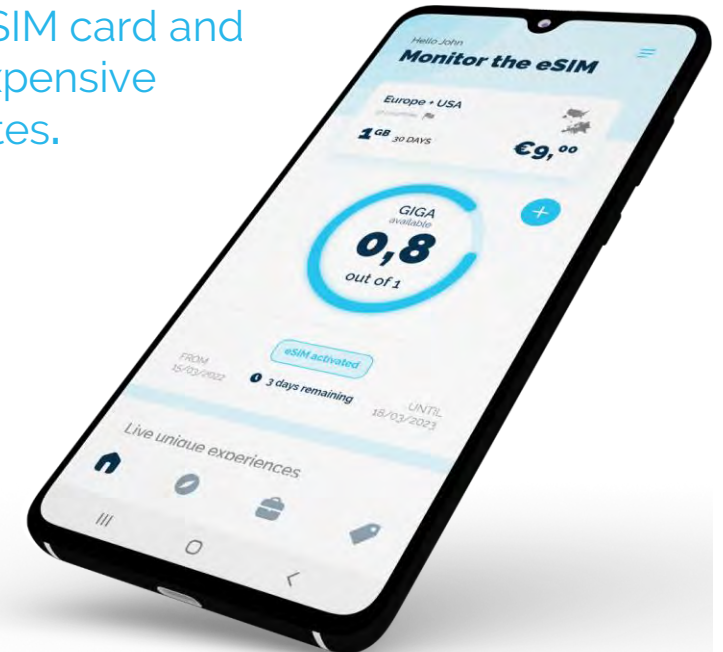

Hey everyone!

Our solution: The connectivity of the future **Manet Travel**

Manet Travel is an **eSIM-based solution** allowing travelers to **activate mobile Internet connectivity** that suits their needs without the hassle of using a physical SIM card and avoiding expensive roaming rates.
