

The platform that runs the buying

Total spend visibility, zero gaps. Streamline every category your property relies on, F&B, FF&E, OS&E, IT, and maintenance, through a unified hub for purchasing, multi-level approvals, and automated invoicing.

\$1.28M

Spend on contract, this month

90%

Invoices straight through, no touch

61.8%

Live gross profit, on real prices

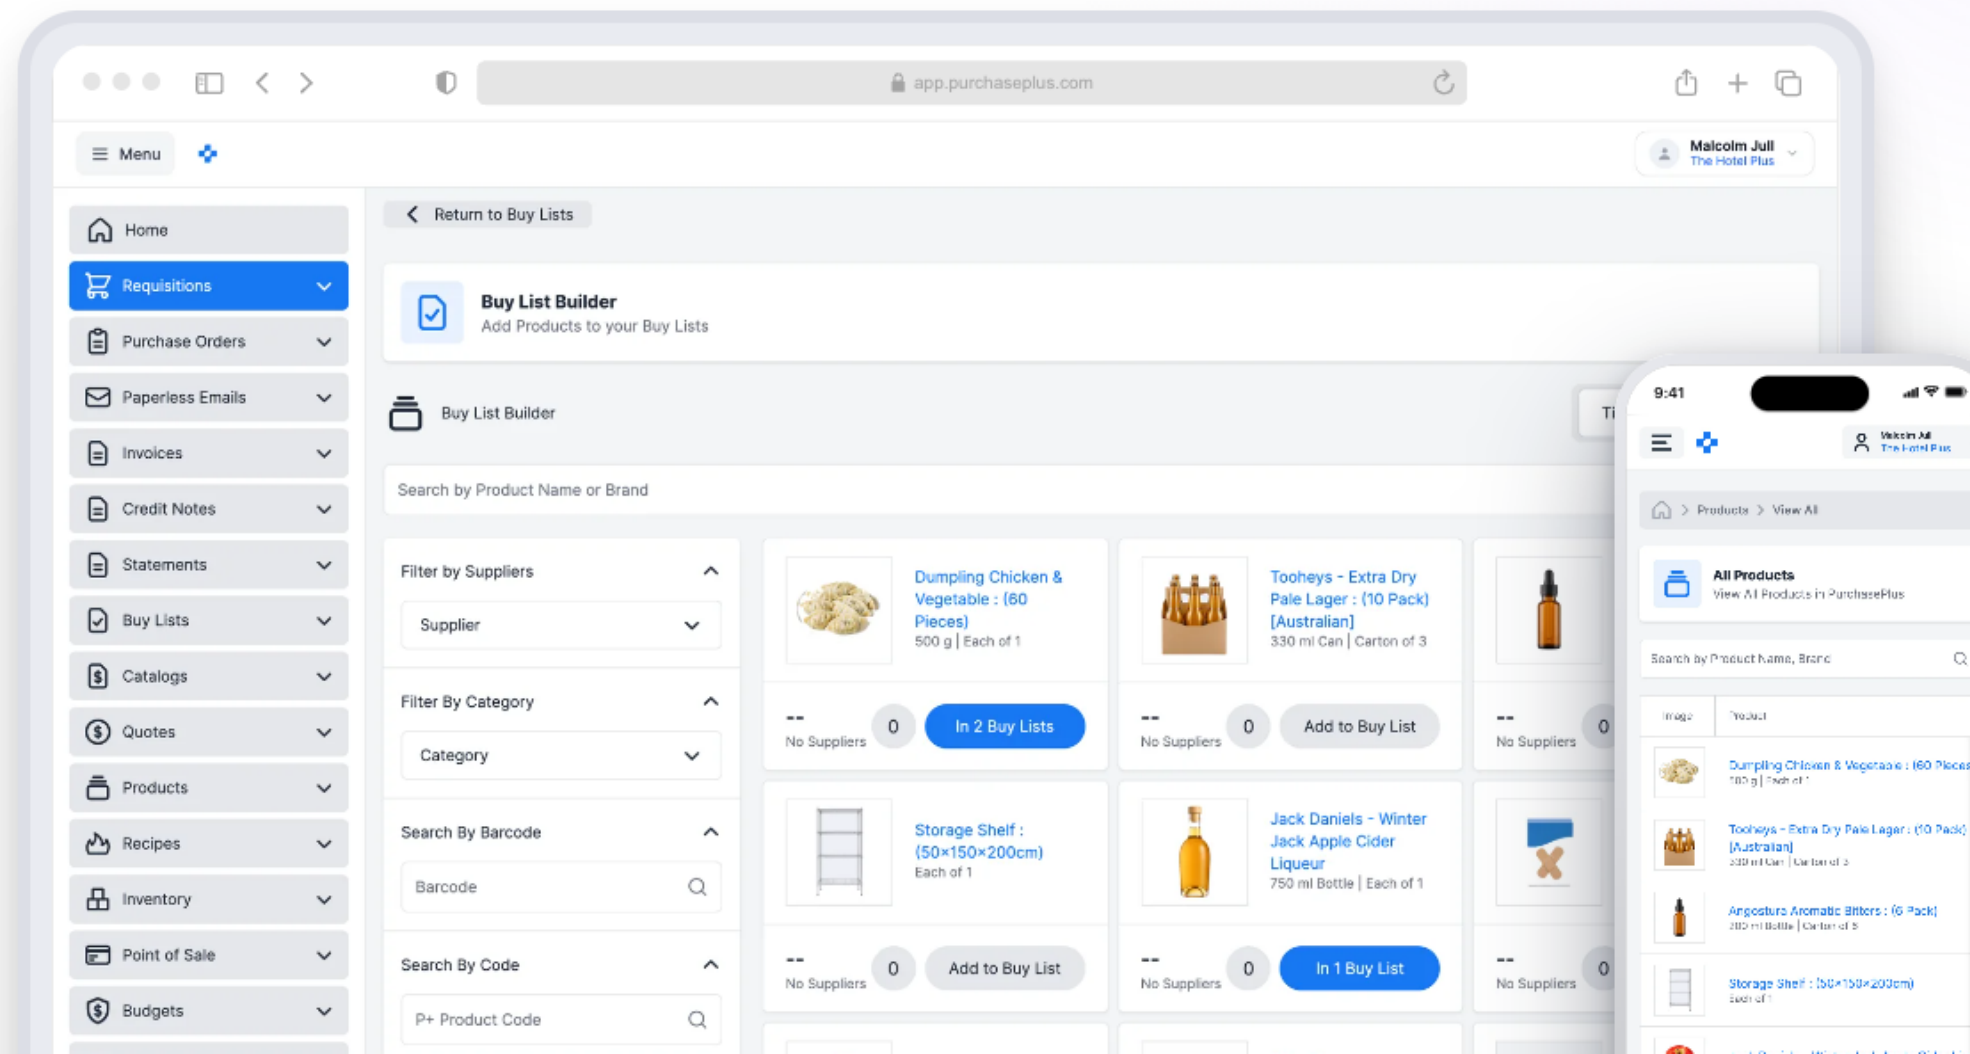

0.8%

Stock count variance at close

Seven modules, one login

50,000+ suppliers

40M+ invoices a year

The month is **already** lost by the time you see it

COST PER INVOICE

\$18

To process one invoice by hand
Printed, keyed, matched and chased. Fifteen
minutes of someone's day, every time.

\$0.50

On PurchasePlus

30 days

Before actuals reach finance

15+ hrs

Lost weekly, per property

3-7%

Of orders bypass contract

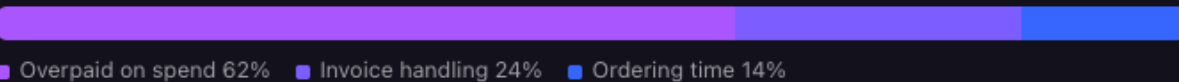

GP% = ?

Menus priced on old costs

Add it up: one 250-room property loses about **\$134,800 a year** in handling time and 2 to 5% overpaid on spend.

ONE PLATFORM

Seven modules, every category, one login

01

Purchasing

100%

Spend on contract

02

0.8%

Count variance

05

Budgets

2.1%

Variance to forecast

06

Suppliers

50,000+

Suppliers connected

07

Reporting

100%

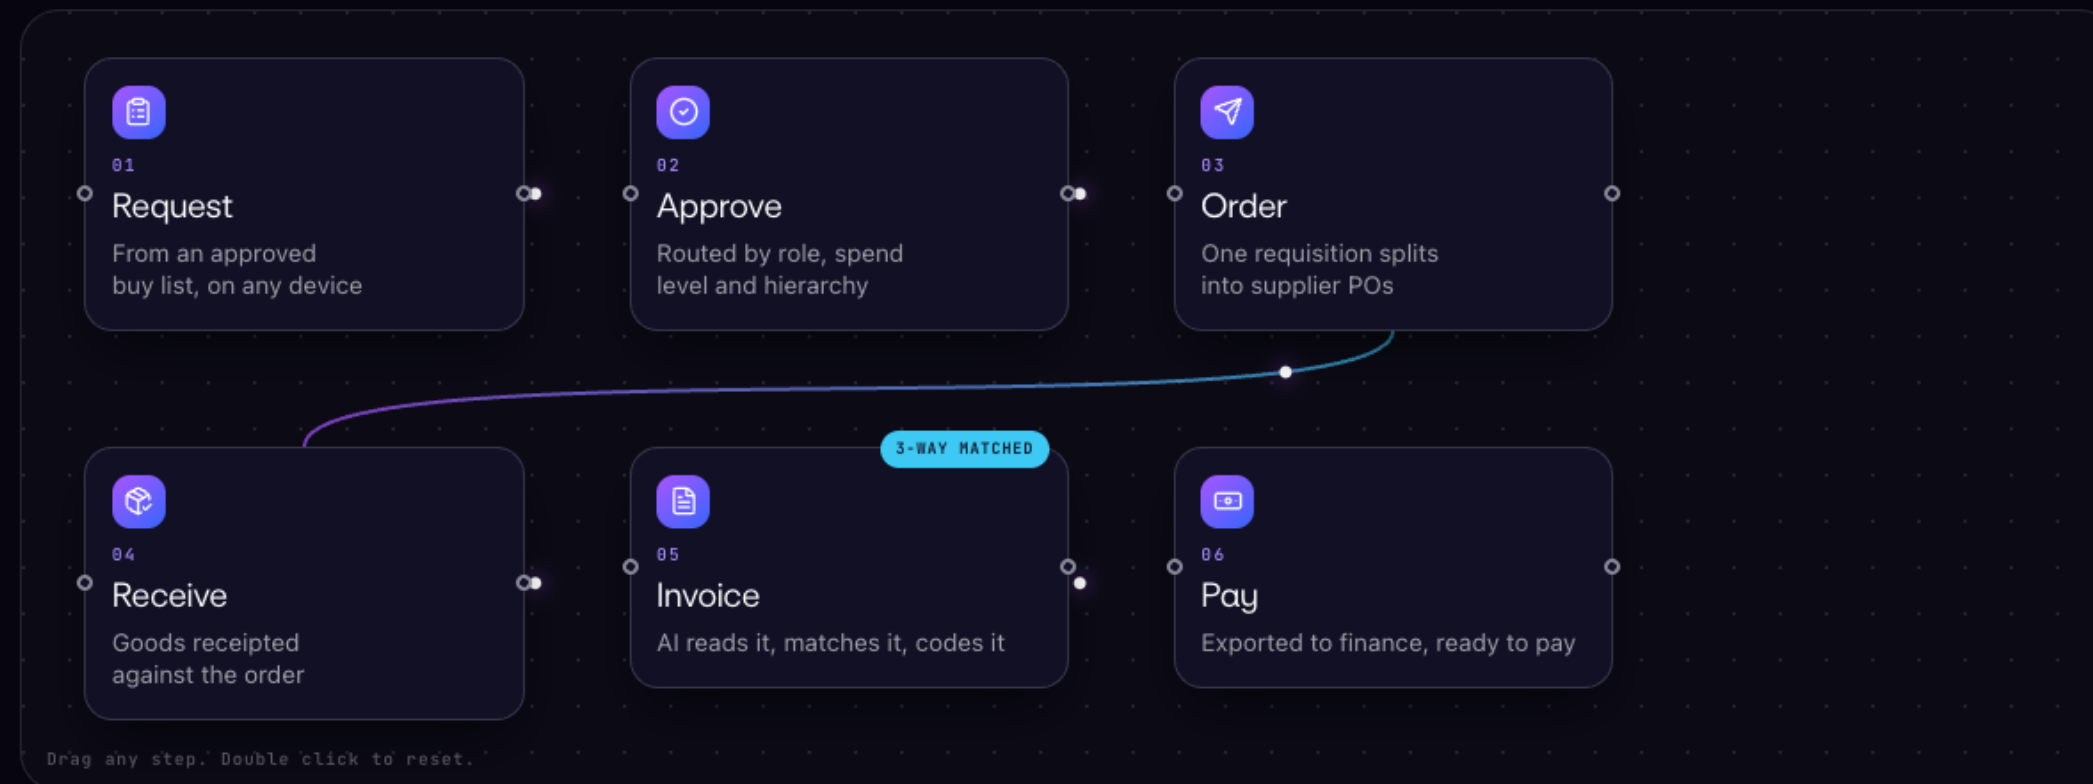

Purchases traceable

Covers everything you buy.

Food & Beverage, OS&E, Engineering, Housekeeping, Services. One place to procure, control and see every dollar for your site.

One flow, **end to end**, controls built in

Nothing is re-keyed between these six stages, which is why the invoice can be matched and coded before anyone looks at it.

Same work. Different economics.

THE JOB	HOW IT RUNS TODAY	ON PURCHASEPLUS	SHIFT
 Placing an order	Phone, email or whoever answers	Approved buy list, on any device	 On contract
 Price control	Whatever the invoice says	Best Buy competition on every line	 7 to 12% off
 Processing an invoice	About \$18 and fifteen minutes, by hand	About \$0.50, 90% with no human touch	 \$18 to \$0.50
 Matching	Manual, if it happens at all	3-way matched: PO, goods receipt, invoice	 3-way
 Budget	A spreadsheet, checked afterwards	Validated before the spend is committed	 Before spend
 Stock and GP%	A month-old estimate	Live, from POS sales and costed recipes	 Live
 Period close	Weeks, and a reconciliation queue	Days, because the coding is already done	 Days

PROOF

The numbers that matter to your CFO

Annual saving, one 250-room property

1 FTE

Saved per 2,000 invoices a month

GO LIVE

Live in **weeks**, with our team doing the lifting

PurchasePlus is a managed service, not self-service software. We groom the catalogues, onboard the suppliers and police the prices with you, built to retire legacy systems and make your site best in class.

01

Kickoff and data

Suppliers, products, cost centres and users collected once, by our team.

02

Setup and configuration

Workflows, approvals and buy lists built around how you actually operate.

03

Training and champions

Role-based training, plus a trained champion in every property.

04

Traction reviews

First stocktake, a four-week check in, then monthly for three months.

Typical property live in about 45 days

An implementation manager on every rollout

97%+ support satisfaction
